

PRINCE MARKOSE

Software Engineer | Full Stack Developer (Laravel | React | TypeScript)

✉ princemarkose2002@gmail.com ☎ +91 7306588186 📍 Kottayam, Kerala, India

PROFESSIONAL SUMMARY

Software Engineer with 1.5+ years of experience designing and developing scalable full-stack web applications using Laravel, PHP, React, and SQL databases. Strong expertise in REST API architecture, authentication systems, database optimization, and modular system design. Experienced in Agile collaboration, legacy system refactoring, CI/CD-based deployment workflows, and maintaining clear technical documentation.

PROFESSIONAL EXPERIENCE

Junior Software Engineer, 9Commerce Technologies

- Architected and developed Laravel-based web applications using MVC principles.
- Designed and implemented RESTful APIs for frontend and third-party integrations.
- Built secure authentication and authorization systems using middleware and policies.
- Optimized MySQL queries and improved database performance.
- Collaborated with frontend teams using React.js for component-based UI development.
- Maintained and enhanced legacy modules using jQuery and Bootstrap.
- Integrated payment gateways and third-party APIs.
- Participated in Agile sprints, code reviews, and structured deployments.
- Refactored legacy code to improve maintainability and reduce technical debt.
- Contributed to technical documentation for modules and workflows.

EDUCATION

Bachelor of Computer Science Engineering, KITS College 2019 – 2023

TECHNICAL SKILLS

Backend

PHP, Laravel (Eloquent ORM, Middleware, Events, Queues), REST API Development, MVC Architecture

Database

MySQL (Query Optimization, Indexing), SQLite, SQL Server

Frontend

React.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Bootstrap, Tailwind CSS, jQuery

Tools & Practices

Git, GitHub, CI/CD Fundamentals, Agile Methodology, API Integration, Deployment

PROJECT EXPERIENCE

E-Commerce Web Application (Laravel + React)

- Developed scalable e-commerce platform with modular architecture.
- Designed normalized relational database structures.
- Implemented secure authentication and role-based access control.
- Built REST APIs consumed by frontend components.
- Developed admin dashboard and optimized checkout workflows.
